

## TECHNICAL INFORMATION

Catalog Number: 105647  
**Chenodeoxycholic acid**

**Structure:**

**Molecular Formula:** C<sub>24</sub>H<sub>40</sub>O<sub>4</sub>

**Molecular Weight:** 392.6

**CAS #** 474-25-9

**Synonym:** 5 b-cholanic acid-3,7-diol

**Physical Description:** White powder

**Description:** Induces dissolution of cholesterol and gallstones.

**Solubility:** Soluble in glacial acetic acid, methanol, ethanol and acetone

**Reference:**
