

TECHNICAL INFORMATION

Catalog Number: 195455

Pristane

Structure:

Molecular Formula: C₁₉H₄₀

Molecular Weight: 268.51

CAS # 1921-70-6

Synonym: 2,6,10,14-tetramethylpentadecane

Physical Description: Clear, colorless liquid

Description: Used as a biological marker

Source: Shark oil

Solubility: Soluble in ether, petroleum ether, benzene, chloroform, carbon tetrachloride
