ImmunO™

Monoclonal Mouse Anti-Human IgA2

Catalog #: 69086

Lot #: Typical

Clone: 2E2

Isotype: IgG1

Form: Liquid. This antibody is supplied in ascites form. This reagent contains 0.1% sodium azide as preservative.

Antibody Conc.: 1 mg/ml.

Usage: Determination of IgA subclass levels in serum samples with suspected immunodeficiency of the mucosal system. Research use in the determination of the IgA subclass profiles in food allergies. This antibody is suitable for use in ELISA techniques.

Storage: Store at 2-8°C. For prolonged storage, -20°C or colder is recommended. Avoid repeated freezing and thawing cycles.

Approved by: Joseph Dietz, Ph.D.
